INVESTMENT OBJECTIVE

Evolve Global Materials & Mining Enhanced Yield Index ETF ("BASE") seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Solactive Materials & Mining Index, or any successor thereto, while mitigating downside risk. The ETF invests directly or indirectly in equity securities of global issuers engaged in the manufacturing, mining and/or integration of metals and materials, while writing covered call options on up to 33% of the portfolio securities, at the direction of the Manager. The level of covered call option writing may vary based on market volatility and other factors.

¹ Trailing 12-month yield represents the yield an investor would have received if they held the fund over the past twelve months, based on the Net Asset Value (NAV) as at April 30, 2026. It is calculated as the sum of all the regular distribution amounts over the past twelve months, and then divided by the NAV calculated on April 30, 2026.

² Plus applicable sales taxes.

The initial composition of the BASE Index as well as any ongoing adjustments upon rebalancing are based on certain criteria, including:

- (i) Constituent Issuers must have securities listed on an exchange (excluding exchange in a country that employs certain restrictions on foreign capital investment);
- (ii) Constituent Issuers must have a minimum market capitalization of CAD 5 billion;
- (iii) Constituent Issuers must meet a minimum liquidity threshold of CAD 2 million.

+

The securities of the Constituent Issuers are then ranked by market capitalization in descending order and the 20 highest ranked securities are selected for inclusion into the Index.
