The Growth of \$10,000 chart above is based on the historical daily net asset value per unit (NAV) of the ETF, and represents the value of an initial investment into the ETF of \$10,000 since its inception, on a total return basis. Distributions, if any, are treated as reinvested, and it does not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder. The NAV values do not contemplate management fees and other fund expenses where paid by the fund. The chart is not a performance chart and is not indicative of future value which will vary.

\* For the period ending March 29, 2019. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF or returns on investment in the ETF. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.
