INDEX METHODOLOGY

Measures the performance of equities (including ADRs and GDRs) of companies that are located in developed markets and hedges foreign currency exposure back to CAD.

+

These companies must be classified under the FactSet Revere Business Industry Classification System: Carrier Edge Network Management Equipment, Network Security Equipment, Data Center Services, Government IT Services, Network Security Software.

+

These companies must have a minimum market cap of CAD \$100 million and have a minimum average daily value traded of CAD \$2 million over the preceding 3 months.

³ For the period ending February 28, 2019. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF or returns on investment in the ETF. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

⁴ Performance since inception on September 20, 2017, as at February 28, 2019.

DISCLAIMER

Commissions, management fees and expenses all may be associated with exchange traded mutual funds (ETFs). Please read the prospectus before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. There are risks involved with investing in ETFs. Please read the prospectus for a complete description of risks relevant to the ETF. Investors may incur customary brokerage commissions in buying or selling ETF units.

Investors should monitor their holdings, as frequently as daily, to ensure that they remain consistent with their investment strategies.
