The population is aging, the middle class is increasing, and healthcare technology is advancing. **These factors help create demand for healthcare companies.**

INVESTMENT OBJECTIVE

LIFE seeks to replicate, to the extent reasonably possible before fees and expenses, the performance of the Solactive Global Healthcare 20 Index Canadian Dollar Hedged, while mitigating downside risk. LIFE invests primarily in the equity constituents of the Solactive Global Healthcare 20 Index Canadian Dollar Hedged, while writing covered call options on up to 33% of the portfolio securities, at the discretion of the Manager. The level of covered call option writing may vary based on market volatility and other factors.

## INDEX METHODOLOGY

FactSet RBICS: Health Technology + Top 20 stocks that have the largest market capitalization + Minimum average daily value traded of at least CAD 5 million over the last 3 months

<sup>3</sup> For the period ending April 30, 2019. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF or returns on investment in the ETF. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

<sup>4</sup> Performance since inception on October 25, 2017, as at April 30, 2019.

## DISCLAIMER

Commissions, management fees and expenses all may be associated with exchange traded mutual funds (ETFs). Please read the prospectus before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. There are risks involved with investing in ETFs. Please read the prospectus for a complete description of risks relevant to the ETF. Investors may incur customary brokerage commissions in buying or selling ETF units.

Investors should monitor their holdings, as frequently as daily, to ensure that they remain consistent with their investment strategies.
