<sup>2</sup> The rates of return shown in the table are used only to illustrate the effect of the compound growth rate and are not intended to reflect future values of the ETF or returns on investment in the ETF. Returns may vary by class due to the use of currency hedging. Total return performance calculations reflect performance from February 28, 2018 to February 28, 2020 on a trailing basis and are subject to change daily.

Commissions, trailing commissions, management fees and expenses all may be associated with exchange traded funds (ETFs). Please read the prospectus before investing. The indicated rates of return are the historical annual compound total returns net of fees (except for figures of one year or less, which are simple total returns) including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. There are risks involved with investing in ETFs. Please read the prospectus for a complete description of risks relevant to the ETF. Investors may incur customary brokerage commissions in buying or selling ETF units.
