**INVESTMENT OBJECTIVE**

BASE seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Solactive Global Materials & Mining Index, or any successor thereto, while mitigating downside risk. The ETF invests directly or indirectly in equity securities of global issuers engaged in the manufacturing, mining and/or integration of metals and materials, while writing covered call options on up to 33% of the portfolio securities, at the direction of the Manager. The level of covered call option writing may vary based on market volatility and other factors.

+

The initial composition of the BASE Index as well as any ongoing adjustments upon rebalancing are based on certain criteria, including:

- (i) Constituent Issuers must have securities listed on an exchange (excluding exchange in a country that employs certain restrictions on foreign capital investment);
- (ii) Constituent Issuers must have a minimum market capitalization of CAD 5 billion;
- (iii) Constituent Issuers must meet a minimum liquidity threshold of CAD 2 million.

+

The securities of the Constituent Issuers are then ranked by market capitalization in descending order and the 20 highest ranked securities are selected for inclusion into the Index.

<sup>3</sup> For the period ending September 30, 2020. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF or returns on investment in the ETF.
