The population is aging, the middle class is increasing, and healthcare technology is advancing. These factors help create demand for healthcare companies.

**INVESTMENT OBJECTIVE**
LIFE seeks to replicate, to the extent reasonably possible before fees and expenses, the performance of the Solactive Global Healthcare 20 Index Canadian Dollar Hedged, while mitigating downside risk. LIFE invests primarily in the equity constituents of the Solactive Global Healthcare 20 Index Canadian Dollar Hedged, while writing covered call options on up to 33% of the portfolio securities, at the discretion of the Manager. The level of covered call option writing may vary based on market volatility and other factors.

**Who Should Consider This ETF?**
- Seeking capital appreciation through having exposure to global healthcare
- Willing to take the risk associated with equity investments
- Seeking increased yield from covered call strategy

Percentages may not add up to 100% due to rounding.

1 Estimate only. Actual yield changes daily based on market conditions. Target yield is gross of MER. Source: Bloomberg, Morningstar, as at September 30, 2020.

2 Plus applicable sales taxes.
For the period ending September 30, 2020. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF or returns on investment in the ETF. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

Performance since inception on October 25, 2017, as at September 30, 2020.

DISCLAIMER
Commissions, management fees and expenses all may be associated with exchange traded funds (ETFs) and mutual funds (funds). Please read the prospectus before investing. ETFs and mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. There are risks involved with investing in ETFs and mutual funds. Please read the prospectus for a complete description of risks relevant to ETFs and mutual funds. Investors may incur customary brokerage commissions in buying or selling ETF and mutual fund units.

Investors should monitor their holdings, as frequently as daily, to ensure that they remain consistent with their investment strategies.
