INVESTMENT OBJECTIVE

FIXD seeks to provide a stable rate of return, primarily through income, and to a lesser extent, capital appreciation. This ETF invests primarily in domestic and international high quality fixed income securities, and to a lesser extent, adding yield or enhancing returns on the portfolio by opportunistically investing in international fixed income securities, emerging market debt, preferred shares, convertible bonds and non-investment grade bonds.

³ For the period ending September 30, 2021. The indicated rates of return are the historical annual compound total returns net of fees (except for figures of one year or less, which are simple total returns) including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF or returns on investment in the ETF. ETFs are not guaranteed, their values change frequently, and past performance may not be repeated.

⁴ Performance since inception on March 28, 2018, as at September 30, 2021.
