

This document contains key information you should know about Evolve Bitcoin ETF. You can find more detailed information about this exchange-traded fund (ETF) in its prospectus. Ask your representative for a copy of the prospectus, visit the Evolve Funds Group Inc. (“Evolve”) website at www.evolveetfs.com, or contact Evolve at info@evolveetfs.com or 416.214.4884 or 1.844.370.4884.

Before you invest, consider how the ETF would work with your other investments and your tolerance for risk.

The Evolve Bitcoin ETF is considered an alternative mutual fund within the meaning of National Instrument 81-102 Investment Funds (“NI 81-102”) and is permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. As an alternative mutual fund, under NI 81-102, the Evolve Bitcoin ETF is permitted to use strategies generally prohibited by conventional mutual funds, including the ability to borrow cash to use for investment purposes and increased ability to invest in commodities. While these specific strategies will be used in accordance with the ETF’s investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

The Evolve Bitcoin ETF invests in bitcoin. Given the speculative nature of bitcoin and the volatility of the bitcoin markets, there is considerable risk that the Bitcoin will not be able to meet its investment objectives. An investment in the ETF is not intended as a complete investment program and is appropriate only for investors who have a sophisticated knowledge and understanding of bitcoin and the capacity to absorb a loss of some or all of their investment.

HOW RISKY IS IT?

The value of the ETF can go down as well as up. You could lose money. One way to gauge risk is to look at how much an ETF’s returns change over time. This is called “volatility”.

In general, ETFs with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. ETFs with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Evolve has rated the volatility of this ETF as **high**. This rating is based on how much the ETF’s returns have changed from year to year. It doesn’t tell you how volatile the ETF will be in the future. The rating can change over time. An ETF with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
------------	----------------------	---------------	-----------------------	-------------

For more information about the risk rating and specific risks that can affect the ETF’s returns, see the “Risk Factors” section of the ETF’s prospectus.

NO GUARANTEES

ETFs do not have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE ETF PERFORMED?

This section tells you how CAD ETF Units of the ETF have performed over the past 2 years. Returns¹ after expenses have been deducted. These expenses reduce the ETF’s returns.

¹ Returns are calculated using the ETF’s net asset value (NAV)

Year-by-year returns

This chart shows how CAD ETF units of the ETF performed in the past 2 years. The ETF dropped in value in 1 of the 2 years.

The range of returns and change from year to year can help you assess how risky the ETF has been in the past. It does not tell you how the ETF will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for the CAD ETF Units of the ETF in a 3-month period over the past 2 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 Months Ending	If you invested \$1,000 at the beginning of the period
Best return	71.49%	March 31, 2023	Your investment would rise to \$1,714.90
Worst return	-58.13%	June 30, 2022	Your investment would drop to \$418.70

Average return

This section shows the value and annual compounded rate of return of a hypothetical \$1,000 investment in CAD ETF Units of the ETF.

As at March 31, 2024, a person who invested \$1,000 in the fund since inception now has \$1,370.89. This works out to an annual compounded rate of return of 10.68%.

TRADING ETFs

ETFs hold a basket of investments, like mutual funds, but trade on exchanges like stocks. Here are a few things to keep in mind when trading ETFs:

Pricing

ETFs have two sets of prices: market price and NAV.

Market Price

ETFs are bought and sold on exchanges at the market price. The market price can change throughout the trading day. Factors like supply, demand, and changes in the value of an ETF’s investments can affect the market price.

You can get price quotes any time during the trading day. Quotes have two parts: bid and ask.

The bid is the highest price a buyer is willing to pay if you want to sell your ETF units. The ask is the lowest price a seller is willing to accept if you want to buy ETF units. The difference between the two is call the “bid-ask spread”.

In general, a smaller bid-ask spread means the ETF is more liquid. That means you are more likely to get the price you expect.

Net Asset Value (NAV)

Like mutual funds, ETFs have a NAV. It is calculated after the close of each trading day and reflects the value of an ETF’s investment at that point in time.

NAV is used to calculate financial information for reporting purposes – like the returns shown in this document.

Orders

There are two main options for placing trades: market orders and limit orders. A market order lets you buy or sell units at the current market price. A limit order lets you set the price at which you are willing to buy or sell units.

Timing

In general, market prices of ETFs can be more volatile around the start and end of the trading day. Consider using a limit order or placing a trade at another time during the trading day.

WHO IS THIS ETF FOR?

Investors:

- seeking exposure to the daily price movements of the U.S. dollar price of bitcoin;
- seeking a convenient, secure alternative to a direct investment in bitcoin;
- who have a sophisticated knowledge and understanding of bitcoin; and
- who have the capacity to absorb a loss of some or all of their investment.

A WORD ABOUT TAX

In general, you’ll have to pay income tax on any money you make on an ETF. How much you pay depends on the tax laws where you live and whether or not you hold the ETF in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your ETF in a non-registered account, distributions from the ETF are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

This section shows the fees and expenses you could pay to buy, own and sell CAD ETF Units of the ETF. Fees and expenses – including trailing commissions – can vary among ETFs. Higher commissions can influence representatives to recommend one investment over another. Ask about other ETFs and investments that may be suitable for you at a lower cost.

1. BROKERAGE COMMISSIONS	You may have to pay a commission every time you buy and sell CAD ETF Units of the ETF. Commissions may vary by brokerage firm. Some brokerage firms may offer commission-free ETFs or require a minimum purchase amount.												
2. ETF EXPENSES	You don’t pay these expenses directly. They affect you because they reduce the ETF’s returns. As of December 31, 2023, the ETF’s expenses were 1.72% of its value. This equals to \$17.20 for every \$1,000 invested. <table border="1" data-bbox="438 1638 1521 1890"> <thead> <tr> <th colspan="2" style="text-align: right;">Annual rate (as a % of the ETF’s value)</th> </tr> </thead> <tbody> <tr> <td>Management Expense Ratio (MER)</td> <td style="text-align: right;">1.69%</td> </tr> <tr> <td>This is the total of the ETF’s management fee and operating expenses. 3. TRAILING COMMISSION	The trailing commission is an ongoing commission. It is paid for as long as you own the ETF. It is for the services and advice that your representative and their firm provide you. This ETF doesn’t have a trailing commission.												

OTHER FEES

FEE	What you pay
Other Charges	An amount of up to 1% of the issue, exchange or redemption price, or such other amount as may be agreed to between the Manager and the Designated Broker or a Dealer, of the ETF may be charged to offset certain transaction costs associated with an issue, exchange or redemption of units of that Evolve ETF. This charge does not apply to unitholders who buy and sell their units through the facilities of the TSX.

WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to cancel your purchase within 48 hours after you receive confirmation of the purchase. In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the prospectus, ETF Facts or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory. For more information, see the securities law of your province or territory or ask a lawyer.
