Investment Objective

DATA seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Solactive Global Cloud Computing Index Canadian Dollar Hedged, or any successor thereto. DATA invests primarily in equity securities of companies located domestically or internationally that have business operations in the field of cloud computing.

Who Should Consider this ETF?

INVESTORS WHO ARE:

- seeking to invest in companies that have business operations in the field of cloud computing
- seeking capital appreciation through exposure to equity securities of companies located domestically or internationally
- willing to take the risk associated with equity investments
