## Investment Objective

The investment objective of EARN is to generate positive returns throughout the interest rate and economic cycles, firstly by allocating to different credit asset classes, and also through bottom-up individual security selection. EARN seeks to provide long-term returns in excess of the 3 month U.S. dollar London Interbank Offered Rate ("LIBOR") by investing primarily in global debt securities of corporate issuers.

## Who Should Consider this ETF?

### INVESTORS WHO ARE:

- Seeking exposure to an actively managed portfolio of global fixed income securities of public and corporate issuers
- That are willing to accept the degree of risks associated with global fixed income securities and investment grade debt securities
- Seeking income and long-term capital appreciation from their investment in a diversified mix of global fixed income securities

## Sub-Advisor

Allianz Global Investors is a leading active asset manager with over 700 investment professionals\* in 25 offices worldwide and managing USD \$612 billion in assets for individuals, families and institutions. Active is the most important word in our vocabulary. Active is how we create and share value with clients. We believe in solving, not selling, and in adding value beyond pure economic gain. We invest for the long term, employing our innovative investment expertise and global resources. Our goal is to ensure a superior experience for our clients, wherever they are based and whatever their investment needs. Active is: Allianz Global Investors *Data as of June 30, 2018 (\*as of December 31, 2017)*

\* Estimate only. Actual yield changes daily based on market conditions. Current yield is gross of MER, as at March 29, 2022.

The indicated rates of return are the historical annual compound total returns net of fees (except for figures of one year or less, which are simple total returns) including changes in per unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. The rates of return shown in the table are not intended to reflect future values of the ETF and mutual fund or returns on investment in the ETF and mutual fund. ETFs and mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Commissions, trailing commissions, management fees and expenses all may be associated with exchange traded funds (ETFs) and mutual funds. Please read the prospectus before investing. There are risks involved with investing in ETFs and mutual funds. Please read the prospectus for a complete description of risks relevant to the ETF and mutual fund. Investors may incur customary brokerage commissions in buying or selling ETF and mutual fund units. Investors should monitor their holdings, as frequently as daily, to ensure that they remain consistent with their investment strategies.
