Commissions, management fees and expenses all may be associated with exchange traded funds (ETFs). Please read the prospectus before investing. The indicated rates of return are the historical annual compound total returns net of fees (except for figures of one year or less, which are simple total returns) including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

The rates of return shown in the table are used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the ETF or returns on investment in the ETF.

Investors should monitor their holdings, as frequently as daily, to ensure that they remain consistent with their investment strategies.
