## INVESTMENT OBJECTIVE

Evolve Active Global Fixed Income Fund ("EARN") seeks to generate positive returns throughout the interest rate and economic cycles, firstly by allocating to different credit asset classes, and also through bottom-up individual security selection. EARN seeks to provide long term returns in excess of the 3 month U.S. dollar London Interbank Offered Rate ("LIBOR") by investing primarily in global debt securities of corporate issuers.

<sup>1</sup> Trailing 12-month yield represents the yield an investor would have received if they held the fund over the past twelve months, based on the Net Asset Value (NAV) as at November 29, 2024. It is calculated as the sum of all the regular distribution amounts over the past twelve months, and then divided by the NAV calculated on November 29, 2024.

<sup>2</sup> Plus applicable sales taxes.

## Who Should Consider This Fund?

Investors:

- Seeking exposure to an actively managed portfolio of global fixed income securities of corporate issuers
- That are willing to accept the degree of risks associated with global fixed income securities and investment grade debt securities
- Seeking income and long term capital appreciation from their investment in a diversified mix of global fixed income securities

## DISCLAIMER

Commissions, trailing commissions, management fees and expenses all may be associated with exchange traded funds (ETFs) and mutual funds. Please read the prospectus before investing. The indicated rates of return are the historical annual compound total returns net of fees (except for figures of one year or less, which are simple total returns) including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. ETFs and mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

The rates of return shown in the table are used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the ETF and mutual fund or returns on investment in the ETF and mutual fund.
