Investment Objective and Strategies

The investment objective of Evolve Bitcoin ETF (the “Fund”) is to provide unitholders with exposure to the daily price movements of the U.S. dollar price of bitcoin while experiencing minimal tracking error by utilizing the benefits of the creation and redemption processes offered by the exchange traded fund structure.

Risk

There were no changes to the Fund over the period of this report that materially affected the level of risk associated with an investment in the Fund. Prospective investors should read the Fund’s most recent prospectus and consider the description of risks contained therein.

Results of Operations

For the six-month period ended June 30, 2025, the Canadian Dollar Unhedged ETF Units returned 5.9% and the US Dollar Unhedged ETF Units returned 11.7%. The Fund’s net assets were \$201.5MM as at June 30, 2025.

Portfolio Manager Commentary

Bitcoin delivered strong performance in the first half of 2025, posting gains despite periods of heightened volatility and shifting macroeconomic conditions¹. After a turbulent start to the year driven by macroeconomic uncertainty, the market rebounded sharply as investor sentiment improved, and institutional demand accelerated.

A major catalyst for Bitcoin this year was the surge in Bitcoin ETF inflows, which reached approximately \$14.9 billion in the first half of the year—driving global Bitcoin ETF assets above \$150 billion². Bitcoin treasury firms and public companies also emerged as significant institutional buyers. Public companies acquired roughly 131,000 BTC in the second quarter of 2025, marking an 18% increase from the previous quarter and outpacing ETF purchases for the third consecutive quarter³.

Regulatory tailwinds out of Washington further supported crypto investor confidence. The GENIUS Act—which established a regulatory framework for stablecoins cleared the Senate⁴. The withdrawal of previously proposed SEC restrictions and the reappointment of crypto-forward officials at both the SEC and CFTC added to the perception of a shifting regulatory tone, helping reduce policy overhangs and encouraging greater institutional involvement. After a brief dip in April, these factors allowed Bitcoin to rally to an all time high in late May⁵.

On the macroeconomic front, a weakening U.S. dollar and mounting expectations of Federal Reserve rate cuts provided additional support for Bitcoin. The dollar posted its worst first half performance in four decades, prompting investors to seek alternatives as stores of value⁶.

Recent Developments

In 2025, trade tensions have escalated as the United States considers imposing new tariffs on key trading partners, including Canada and Mexico, along with broader reciprocal measures on other nations. In response, affected countries may enact retaliatory tariffs, further increasing uncertainty in global trade. These developments have contributed to heightened market volatility and could disrupt global supply chains, particularly impacting trade-sensitive sectors. The duration and full impact of these events remain uncertain, and as such, the financial implications for investments cannot be estimated at this time.

Related Party Transactions

Evolve Funds Group Inc. (the "Manager"), a corporation incorporated under the laws of the Province of Ontario, is the trustee, manager, and portfolio advisor of the Fund and is responsible for the day-to-day administration of the Fund. The Fund pays annual management fees to the Manager as consideration for its services. Any management fees paid to the Manager are related party transactions, as the Manager is considered to be a related party to the Fund. The management fees are disclosed in the statements of comprehensive income in the annual financial statements of the Fund and are discussed in greater detail below.

The Fund is permitted to purchase, sell and hold securities of certain issuers that are directly or indirectly related to the Manager. With respect to investment in related issuers, the Manager has relied on the approval that it has received from the Investment Review Committee ("IRC"). The Manager complies with its current policy and procedures regarding investments in related issuers and reports periodically to the IRC.

Management Fees

The management fees are calculated based on 0.75% per annum of the average daily net asset value of the Fund. The fees are accrued daily and generally paid monthly. For the six-month period ended June 30, 2025, the Fund incurred \$804,706 in management fees. These management fees were received by the Manager for the day-to-day operations of the fund, including managing the portfolio, maintaining portfolio systems used to manage the Fund, maintaining the www.evolveetfs.com website, and providing all other services including marketing and promotion.

Operating Expenses

Unless waived or reimbursed by the Manager, the Fund pays for all operating expenses of the Fund incurred in connection with the operation and administration of the Evolve Fund, including but not limited to: mailing and printing expenses for periodic reports to Unitholders; fees payable to the Registrar and Transfer Agent and Custodian; any reasonable out of pocket expenses incurred by the Manager or its agents in connection with their ongoing obligations to the Fund; IRC committee member fees and expenses in connection with the IRC; expenses related to compliance with NI 81-107; fees and expenses relating to voting of proxies by a third party; insurance coverage for the members of the IRC; fees payable to the auditors and legal advisors of the Fund; regulatory filing, stock exchange and licensing fees (if applicable) and CDS fees; banking costs and interest with respect to any borrowing (if applicable); website maintenance costs; costs and expenses of complying with all applicable laws, regulations and policies, including expenses and costs incurred in connection with the continuous public filing requirements such as permitted prospectus preparation and filing expenses; and legal, accounting and audit fees and fees and expenses of the Trustee, Bitcoin consultant (if any), CF Benchmarks (in respect of index licensing and/or consulting fees, if any) Custodian and Manager which are incurred in respect of matters not in the normal course of the Fund's activities. Additional costs which are also payable by the Fund include any taxes payable by Fund to which the Fund may be subject, including income taxes, sales taxes (including GST/HST) and/or withholding taxes; expenditures incurred upon termination of the Fund; extraordinary expenses that the Fund may incur and all amounts paid on account of any indebtedness (if applicable); any expenses of insurance and costs of all suits or legal proceedings in connection with the Fund or the assets of the Fund or to protect the unitholders, the Trustee, the Manager, and the directors, officers, employees or agents of any of them; any expenses of indemnification of the Trustee, the Unitholders, the Manager, and the directors, officers, employees or agents of any of them to the extent permitted under the Declaration of Trust; and expenses relating to the preparation, printing and mailing of information to unitholders in connection with meetings of unitholders. The Fund is also responsible for all commissions and other costs of portfolio transactions and any extraordinary expenses of the Fund which may be incurred from time to time, including brokerage and trading commissions and other fees and expenses associated with the execution of transactions in respect of the Fund's investment in bitcoin.

4 This information is provided as at June 30, 2025, and December 31, 2024, 2023, 2022 and 2021.

5 Management expense ratio ("MER") is based on total expenses plus harmonized sales tax (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

6 The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average daily net assets during the period.

7 The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Past Performance

The performance information does not take into account sales, redemption, distribution, income taxes payable by any unitholder or other optional charges that, if applicable, would have reduced returns or performance. The performance information shown assumes that all distributions made by the investment fund in the periods shown were reinvested in additional securities of the investment fund. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar chart below shows the Canadian Dollar Unhedged and US Dollar Unhedged ETF Units' performance for each of the financial years shown and for the six-month period ended June 30, 2025. The chart shows, in percentage terms, how much an investment made in the Fund on the first day of each financial period would have grown or decreased by the last day of that financial period.
